Wearable Art Printmaking

Custom Graphic Totes or Tees Designed & Printed by Young Makers

Turn your celebration into a working textile print shop! In this hands-on workshop, young artists learn the authentic art of relief foam block printing. Guests sketch unique designs or use themed printed templates before carving their own printing blocks. Each guest will ink their blocks with velvety, permanent textile inks and press their custom graphics onto wearable pieces they can show off every day.

The Experience

Step One: Design & Carve Your Stamp

Artists sketch their theme-inspired design onto high-density relief foam using smooth styluses—creating deep, tactile lines with no sharp tools needed.

Step Two: Mount the Block

The custom design is mounted on a sturdy block, ready for even hand pressing.

Step Three: Ink & Pull Design

Learn to roll permanent fabric inks onto inking plates with soft rubber brayers, apply ink to your stamps, press, and carefully lift to reveal a crisp graphic design. Guests will do their first pull on cardstock before moving to their fabric.

Vincent's Fan Art Lounge

Expressive Impasto-Style Pastel Art on Framed Canvas Panels

Step into the studio of Vincent van Gogh with a vibrant pop-culture twist! In this hands-on fine art workshop, young creators transform their favorite characters, animals, and icons into bold, textured gallery art. Using guided line-transfer templates and authentic impressionist mark-making, artists build vibrant layers of rhythmic dashes, energetic swirls, and rich impasto textures.

The Experience

Step One: Transfer Design

Each creator selects a printed character template tailored to their event's theme and uses transfer paper to contour lines directly onto their 8"x10" canvas board

Step Two: The Dash & Swirl Technique

Artists learn Van Gogh's signature mark-making secrets: building form and dimension through directional dashes, layered strokes, and vibrant commas rather than flat blending.

Step Three: Building the Image

Kids layer rich, multi-tonal oil pastels starting with their subject and working out towards the background last. Student's can use artistic freedom to create swirls and character throughout, fiinishing with outlines and highlights.

Step Four: Frame & Finish

Finished canvas panels are mounted directly into an open-face natural wood frame, keeping the textured pastels protected from smudges and ready to hang!

Show off and enjoy your masterpiece!

Included for Every Artist

8" x 10" Canvas Panel: Real textured cotton canvas board that grips thick pastel pigment.

Custom Theme Templates: Printed designs, transfer paper, and pencils for confident creating

Artist-Grade Oil Pastel Bar: A complete palette of creamy, high-pigment pastels that lay down bold, buttery color strokes.

Cozy Pillow Party

Plush, Functional Keepsake to Cuddle

In this hands-on textile workshop, guests design and assemble their very own 12″x12″ plush throw pillow; no sewing skills needed. Using ultra-soft, anti-pill fleece, artists hand-illustrate vibrant surface details with fast-drying acrylic paint markers, then learn the classic double-knot technique to stuff and seal their creation. A relaxing, zero-mess experience that leaves every guest with a functional bedroom statement piece they'll cuddle every night.

The Experience

Step One: Pick your Fleece

Each artist selects their 12″x12″ anti-pill fleece pieces. These may be one patterned and one solid, or two solid-color pieces, picked upon booking.

Step Two: Fabric Illustration

Working while the fabric lies flat on the table, artists pick one side to be their "front" before using acrylic paint markers to sketch details like faces, patterns or initials.

Step Three: The Fringe Tie Technique

Guests align the top and bottom panels and learn the double-knot fringe method, working their way around three sides of the pillow to form a plush pocket.

Step Four: Fluff, Stuff & Seal

Artists gently fill their pillows with cloud-soft polyfill, ensuring every corner is plump and cozy before tying off the remaining fringe and sealing their pillow.

Sign your designer label, and it's ready to cuddle!

Included for Every Artist
